# HOME VISITOR WRAP-AROUND WINTER 2026 TRAINING

## Schedule

 Prevent Child Abuse  
Delaware

# 1

**January 27, 2026 | 9:00am - 10:30am (EST) | ZOOM**

### **Autism & Epilepsy: Seizure Recognition and First Aid Certification**

This course discusses the core characteristics of autism, the co-occurrence of autism and epilepsy, and covers training in seizure recognition and seizure first aid. Upon completing the session and pre/post-knowledge assessment, participants will receive a 2-year certification in Seizure Recognition and First Aid issued by the Epilepsy Foundation of America.

# 2

**February 4, 11, 18, and 25, 2026 | 9:00am - 10:30am (EST) | ZOOM**

### **Pregnancy Across Four Trimesters**

This interactive training series equips home visitors, nurses, and community health workers with a comprehensive understanding of the many changes across each trimester of pregnancy, including the often-overlooked fourth trimester. Participants will gain practical tools, case-based learning, and curated resources to support expectant and new mothers confidently.

# 3

**Intro to Motivational Interviewing (March 2026 - 2 Days In Person)**

**Motivational Interviewing Refresher Course (April 2026 - 1 Day Virtually)**

Motivational Interviewing is a collaborative, person-centered approach that helps strengthen a family's motivation for change. These learning opportunities, which include a two-day core training and a one-day refresher, will provide practical skill-building and real-world application for home visitors and family support professionals.

# 4

**April 14, 2026 | 8:00am - 12:00pm | ZOOM**

### **Soothing the Storm: Helping Families Navigate Infant Crying"**

This 4-hour training will strengthen home visitors' understanding of Shaken Baby Syndrome and the Period of PURPLE Crying while offering practical tools to help families cope with infant crying and prevent harm. Learn how to educate and support parents with empathy, clarity, and confidence.

# 5

**May 7, 2026 & June 4, 2026 | 9:00am - 11:00am (EST) | ZOOM**

### **"The Dad Effect" - Four Part Training Series**

This 4-part virtual series explores the vital role of fathers in child development and family well-being. Participants will learn strategies to overcome common barriers, practice cultural humility, and gain tools to better engage fathers in home visits. Includes a self-paced module through the Institute for the Advancement of Family Support Professional, group discussions, and applied learning with the families you currently partner with.
